25X1A This report, [REDACTED] lists shipments of the Soviet-controlled Vienna transport firm, Juschneschtrans, during the period from 2 May through 31 May 1950. As indicated in previous reports of this series, [REDACTED]  
25X1 coverage of Juschneschtrans shipments is not complete but [REDACTED]  
25X1 [REDACTED] 60 to 70 percent of the shipments to the Soviet Union.

1. Early in May 1950 both Mishin, Soviet director of Juschneschtrans, and Lasutin, chief bookkeeper, were suddenly relieved of their jobs. Kruglov, a recent arrival in Vienna, has been named Soviet director of Juschneschtrans but as yet no one has taken over Lasutin's former post. Juschneschtrans employees have noticed that Kruglov is rather aloof; he does not speak German.

4. In the past four to five weeks Juschweschtrans has handled an estimated 3,000 tons of sugar which USIA has imported duty free from Czechoslovakia and Hungary. Although these shipments were consigned to USIA's Central Commercial Bureau, USIA's Food Industry Administration, and to the "Arbeiterversorgung" (provisions for USIA employees), Austrian employees of Juschweschtrans believe the Soviets may plan to sell most of this sugar on the Austrian market to obtain schillings.

5. During the same period USIA's Central Commercial Bureau has imported large quantities of textiles from Czechoslovakia and Switzerland for "Letex" Ein- und Verkaufszentrale der vereinigten Leder- und Textilbetriebe, Vienna IV. During the first two weeks of May 1950 approximately 30 tons of yarn, cloth, stockings, and finished garments arrived in Vienna. It is believed that USIA intends to sell these textiles on the Austrian market through non-USIA firms.
